

## Requirements for the Drawings :

- Graphic or photographic representations ( PDF , JPG / JPEG or TIFF ) must only represent the object to be protected as an design (in normal use ), on neutral background, excluding any and all accessories, human elements, decorative elements, measures or subtitles;

- You must present the images centered on an A4 sheet (vertically) , with the respective numbering . In case you submit a single image of the product, the numbering shall be : Figure 1 , Figure 2 and so on . If you want to display more views of the same object , you must make an indication of Figure 1.1 , for the first figure , and the remaining views of the object must be identified by Figure 1.2 , Figure 1.3 , etc. . (up to seven views). The second object must be identified with Figure 2.1 and the remaining views must be identified as Figure 2.2, Figure 2.3 , and so on ;

If you want to protect only part of the product , that part shall be evidenced by a single, black and bold trace on the graphic representations, with the rest of the product to be represented in dashed trace (see example of representations of drawings)

Figure(s) in A4 sheet shall not be smaller than 8x8 cm and shall not exceed the dimensions of 10x15 cm ;

**NOTE: Technical drawings with dimensions are not admitted.**

Fantasy expressions are not protected by the form of Design or Model.
