**Examples:**

Fig. 1

Fig. 2

Formal Requirements for the figure(s) for publication:

- Graphical representations or photographs (JPG or JPEG) which will represent only the product to be registered as a design (in normal use) on neutral background, excluding any and all accessories, human elements, decorative elements, measures, or subtitles ;

- If you want to publish the product in the Industrial Property Bulletin in color, thus protecting the objects with specific colors, you must declare it explicitly in your application, indicating the colors, RGB, CMYK or pantone. Otherwise you must submit your images in grayscale. If you aim to use the product in different colors, you should display the images in gray tones.
